

ROOF CURB SUPPORT SYSTEM FOR FLOATING STANDING SEAM ROOFS OR RIB PANEL METAL ROOF

**SYSTEM MAKES INSTALLING
ROOF CURBS SIMPLER AND FASTER!**

HIGHLIGHTS:

- Metal Gauge dependent upon weight of unit.
- Manufactured Pre-Centered to allow 1-1/4" thermal movement in both directions.
- Ships knocked down.
- Resists negative pressure.
- Elevates roof curb to match panel elevation -3/8", 1", 1-3/8" (Thermal Block).
- No bolting Cee's to Zee's or field notching.
- Saves valuable man hours in the field.
- Safer to install while standing on roof panels.
- Can accommodate purlin or bar joist systems.
- Loose Rib Caps for all panel profiles.
- Double and Multi-Spans are available; the number of spans is determined by the curb length.
- Systems are shipped complete with Sealants, Fasteners, and Installation instructions.
